

## **Proposal for Landscaping Maintenance**

Proposal is that Gaia be engaged for the rest of the calendar year to provide Landscape maintenance at 8 hours per month at \$552 per month. See attached estimate/quote

### **Background**

After completion of the Landscape project Gaia were engaged for 3 months to perform maintenance, Tony O'Donahue then engaged them for a further 2 months to continue with this maintenance. The purpose of the proposal is to set it up so the maintenance continues throughout 2026 while CRFPD evaluates who we want to proceed, while maintaining continuity of care during this vulnerable time for the plantings.
